Art Unit: 1761

The terminal disclaimer filed 4/6/05 has been approved and placed of record in the file, thus obviating the obvious type double patenting rejections.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over May et al (WO'219), in view of Quaker oats (GB '351), and Bechtel ('847) further in view of Gutmann ('199), Froebel et al (GB '125), Zitin ('095), Dodge et al ('712) and Vickers (GB '760), further in view of Ohba (Ep '252), Henkel (GB, '634), Mandanas (WO '606), Routh ('901), McMahan (GB '351), Errass (Ep '046), Hillebrand (Austral. '797/96), QP Corp (Jp '677) and QP Corp (Jp '174) for the reasons given in the Office actions mailed 1/4/05, 2/9/04, 6/3/03 and 11/14/02.

All of applicants' remarks filed 4/6/05 have been fully and carefully considered but are not found to be convincing for the reasons of record. Note that the secondary art does not have to teach pet food in a composite concentric arrangement since May et al already teaches pet food in cans in a composite pattern. The secondary art is relied on to show that composite concentric arrangements of products including foods is notoriously conventional. Applicants' are therefore employing a known composite pattern/design and achieve no new unexpected result therefrom.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1761

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
